

Biosenta Inc.

Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars)

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Biosenta Inc.

We have audited the accompanying consolidated financial statements of Biosenta Inc. and its subsidiary, which comprise the consolidated statements of financial position as at September 30, 2015 and 2014, and the consolidated statements of operations and comprehensive loss, consolidated statements of changes in shareholders' equity (deficiency) and consolidated statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Biosenta Inc. and its subsidiary as at September 30, 2015 and 2014, and their financial performance and cash flows for the years then ended in accordance with International Financial Reporting Standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 1 in the consolidated financial statements which indicates that the Company had continuing losses during the year ended September 30, 2015 and a working capital deficiency as at September 30, 2015. In addition, the Company has initiated a restructuring process under the Canadian Bankruptcy and Insolvency Act. These conditions along with other matters set forth in Note 1 indicate the existence of material uncertainties that cast significant doubt about the Company's ability to continue as a going concern.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

1. Nature of Operations and Going Concern

Biosenta Inc. (the “Company” or “Biosenta”) is a public company incorporated and domiciled in Canada, whose shares are traded on the Canadian National Stock Exchange (“CNSX”) under the symbol “ZRO”. The Company's registered address is 3080 Yonge Street, Suite 6020, Toronto, Ontario, Canada, M4N 3N1. In 2011, the Company acquired the intellectual property rights to certain technology and processes relating to anti-microbial products with potential commercial and consumer applications. The Company is currently engaged in developing sales for its Zeromold™ and True product lines and has commissioned a production facility for commercial applications of its technology to produce an anti-microbial Tri-Filler product (the “Parry Sound Production Facility”).

Financial Restructuring

Subsequent to September 30, 2015, on November 19, 2015, the Company filed a Restructuring Proposal to creditors (“Restructuring Proposal”) under the Canadian Bankruptcy and Insolvency Act (“CBIA”) and has appointed a trustee. The proposal has been approved by the Board of Directors of the Company and by a majority of its creditors. The Company instituted proceedings under the CBIA to provide an opportunity for the orderly restructuring of the Company’s business and financial affairs, so as to enable the Company to emerge with a viable business in the most favourable position to secure additional financing(s) to proceed with the development of the Company’s consumer and industrial products lines. There can be no assurances that the Company will emerge from the Restructuring Proposal with a viable business or be able to secure additional financing(s).

Under the Restructuring Proposal, eligible creditors were given the choice of: (i) receiving up to 50 per cent of their eligible claim amount in cash (with 15 per cent up front, subject to proration if total payments thereunder would exceed \$215,000, and 35 per cent payable contingent on there being sufficient cash flow over time), or (ii) in common shares equal in number to 1/700 of the total (fully diluted) issued and outstanding common shares of the Corporation, following all issuances under this Proposal in settlement for each \$10,000 of a creditors’s claim.

A meeting of eligible creditors was held on December 7, 2015 at the trustee's office where the Restructuring Proposal was accepted by the majority of creditors. A court date has been scheduled for February 2, 2016 to proceed with the next step of the Restructuring Proposal.

The Restructuring Proposal under the CBIA allows the Company to carry on business in a manner consistent with the preservation of its business and property. Among other things, the Company is authorized and empowered to continue corporate and site standby activities and to continue to retain and employ the employees, consultants, agents, experts, accountants, counsel and such other persons considered necessary by the Company in the ordinary course of business.

These consolidated financial statements do not give effect to any adjustments which may be required as a result of the Company’s CBIA filing, which if approved would be subsequent to September 30, 2015. Such adjustments, if any, will be reflected in the consolidated financial statements of a later period.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

1. Nature of Operations and Going Concern (continued)

Going Concern

During the year ended September 30, 2015, the Company reported a net loss of \$3,528,160 (2014 - \$4,449,316) and an ending working capital deficit of \$4,878,169 (2014 - \$32,999). As at September 30, 2015, the Company had a very significant working capital deficit and had not met certain financial obligations. As a result of the Company's continuing losses, negative operating cash flows and significant working capital deficit, the Company filed a Restructuring Proposal to Creditors under the CBIA.

Notwithstanding the negative financial results and ending working capital deficit for the year ended September 30, 2015, the Company believes it has sufficient resources to complete the CBIA process and continue its corporate and site standby activities. This belief is based on the Company's expectation that it will successfully complete a settlement of the Company's liabilities and satisfactorily restructure its major contracts by means of a plan of compromise or arrangement. Accordingly, the consolidated financial statements for the year ended September 30, 2015 have been prepared on a going concern basis, using the historical cost convention.

The Company needs to secure additional financing and complete a financial restructuring in order to continue as a going concern. Both a refinancing and financial restructuring are required to manage the Company's working capital deficit and to fund continuing operations, planned development programs and corporate administration.

A successful financial restructuring within the CBIA process would favourably position the Company to secure additional financing for the development of its business units. The Company's ability to secure such additional development financing will depend on several factors, including, among other things, a successful settlement of the Company's liabilities. The Company's ability to develop its business units is dependent on completing additional financing(s). Even if the Company is successful in completing a settlement of liabilities, if the Company is unable to obtain additional financing on a timely basis or on reasonable or acceptable terms, the Company will be unable to pursue development of its business units and unable to continue as a going concern.

There are no assurances that the Company will be successful in completing its required settlement of liabilities under the CBIA process or otherwise. If the Company is unable to successfully complete a settlement of liabilities and restructuring of major contracts, the Company could be required to curtail its operations and discontinue as a going concern. These material uncertainties cast doubt about the Company's ability to continue as a going concern. If the going concern assumption were not appropriate, adjustments would be necessary to the carrying values of the assets and liabilities, reported revenues and expenses, and statement of financial position classifications in these consolidated financial statements. Such adjustments could be material.

2. Basis of Presentation

Statement of Compliance

These consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The accounting policies set out below, have been applied consistently to all periods presented in these consolidated financial statements.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

2. Basis of Presentation (Continued)

The Board of Directors of the Company authorized these consolidated financial statements for issuance on January 28, 2016.

Basis of preparation and presentation

These consolidated financial statements have been prepared on a historical cost basis except for the revaluation of certain financial instruments. In addition, these consolidated financial statements have been prepared using

the accrual basis of accounting except for cash flow information. The consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency.

Basis of consolidation

These consolidated financial statements include the accounts of the Company, which is incorporated in Canada and its wholly owned subsidiary, Biosenta U.S.A. Inc. which is incorporated in the United States. All inter-company balances and transactions are eliminated on consolidation. The consolidated financial statements include all assets, liabilities, expenses and cash flows of the Company and its subsidiary after eliminating inter-company balances and transactions.

3. Significant Accounting Policies

Significant accounting judgments, estimates and assumptions

The preparation of consolidated financial statements in conformity with IFRS requires the Company's management to make judgments, estimates and assumptions about future events that affect the amounts reported in the consolidated financial statements and related notes to the consolidated financial statements.

Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may differ from those estimates and these differences could be material.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

- Assets' carrying values and impairment charges
In the determination of carrying values and impairment charges, management looks at the higher of recoverable amount or fair value less costs to sell in the case of assets and at objective evidence, significant or prolonged decline of fair value on financial assets indicating impairment. These determinations and their individual assumptions require that management make a decision based on the best available information at each reporting period.
- Income taxes and recoverability of potential deferred tax assets
In assessing the probability of realizing income tax assets recognized, management makes estimates related to expectations of future taxable income, applicable tax planning opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified. Estimates of

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

3. Significant Accounting Policies (Continued)

future taxable income are based on forecasted cash flows from operations and the application of existing tax laws in each jurisdiction. The Company considers whether relevant tax planning opportunities are within the Company's control, are feasible, and are within management's ability to implement. Examination by applicable tax authorities is supported based on individual facts and circumstances of the relevant tax position examined in light of all available evidence. Where applicable tax laws and regulations are either unclear or subject to ongoing varying interpretations, it is reasonably possible that changes in these estimates can occur that materially affect the amounts of income tax assets recognized. Also, future changes in tax laws could limit the Company from realizing the tax benefits from the deferred tax assets. The Company reassesses unrecognized income tax assets at each reporting period.

- **Share-based payments**
Management determines costs for share-based payments using market-based valuation techniques. The fair value of the market-based share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgment used in applying valuation techniques. These assumptions and judgments include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and future employee stock option exercise behaviors and corporate performance. Such judgments and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.
- **Convertible debentures**
The Company has issued convertible debentures that are accounted for as compound financial instruments. The fair value of the embedded derivative in the convertible debentures (the conversion option) is estimated at the date of the transaction date using generally accepted valuation techniques. Assumptions are made and judgments are used in applying valuation techniques.
- **Commitments and contingencies**
Refer to Note 15.
- **Going concern**
Refer to Note 1.
- **Inventory provision**
Management makes estimates of the future customer demand for the Company's products when establishing appropriate provision for inventory. In making these estimates, management considers product life of inventory and the profitability of recent sales of inventory. In many cases, product sold by the Company turns over quickly and inventory on-hand values are lower, thus reducing the risk of material misstatement. To the extent that actual losses on inventory differ from those estimated, both inventory and net earnings will be affected.

(a) Inventory

Inventory is valued at the lower of cost and net realizable value, based on the "first in, first out" principle. Any provision for obsolescence is determined by reference to specific items of stock. A regular review is undertaken to determine the extent of any required provision for obsolescence.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

3. Significant Accounting Policies (Continued)

(b) Equipment

Items of property and equipment are measured at cost less accumulated depreciation and any recognized impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset.

When components of property and equipment have different useful lives, they are accounted for as separate items of property and equipment.

The Company commences recognition of depreciation when the item of equipment is ready for its intended use. Depreciation is recognized on the following bases:

- Furniture and equipment 20%
- Computer equipment 45%
- Leasehold improvements - lesser of lease term or useful life, straight line

Depreciation methods and useful lives are reviewed at each reporting date.

Intangible Assets - License

Intangible assets that are acquired by the Company which have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses. The license is amortized over its estimated useful life on a straight-line basis over the license term upon the license being put into use.

Impairment

None of the Company's non-financial assets generate independent cash inflows and therefore all non-financial assets are allocated to cash generating units ("CGU") for purposes of assessing impairment. CGUs are defined as the smallest identifiable group of assets that generate cash inflows that are largely independent of the cash inflows from other assets or group of assets.

Impairment losses are recognized when the carrying amount of a CGU exceeds the recoverable amount, which is the greater of the CGU's fair values less cost to sell and its value in use. Value in use is the present value of the estimated future cash flows from the CGU discounted using a pre-tax rate that reflects current market rates and the risks inherent in the business of each CGU. If the recoverable amount of the CGU is less than its carrying amount, the CGU is considered impaired and is written down to its recoverable amount. The impairment loss is allocated to reduce the carrying amount of the assets of the unit, allocated pro-rata on the basis of the carrying amount of each asset.

Impairment losses of continuing operations are recognized in the consolidated statement of operations. A previously recognized impairment loss for non-financial assets, excluding goodwill, is reversed if there has been a change in the assumptions used to determine recoverable amount since the previous impairment loss was recognized. The carrying amount after the reversal cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

3. Significant Accounting Policies (Continued)

(c) Foreign currency translation

The functional currency of the Company is the Canadian dollar. Monetary assets and liabilities of the Company are translated into Canadian dollars at exchange rates in effect at the reporting dates and non-monetary items are translated at rates of exchange in effect when the assets were acquired or obligations incurred. Transactions in foreign currencies are translated into the currency of measurement at the exchange rates in effect on the transaction date. Foreign exchange gains and losses arising are included in net loss for the year.

(d) Income taxes

Current tax

Income tax expense represents the sum of the tax currently payable and deferred tax. The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of operations because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction which affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

(e) Share capital

Shares issued by the Company are recorded in the amount of the proceeds received, net of the after tax cost of issuance.

The Company, from time to time, may repurchase its shares. When shares are repurchased, the amount of the

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

3. Significant Accounting Policies (Continued)

consideration paid which includes directly attributable costs and is net of any tax effects, is recognized as a deduction from share capital. Any repurchased shares will be cancelled.

(f) Earnings (loss) per Share

The Company presents basic and diluted earnings per share (“EPS”) data for its common shares. Basic EPS is calculated by dividing the profit or loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period, adjusted for its own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to common shareholders and the weighted average number of common shares outstanding, adjusted for the effects of all dilutive potential common shares. The diluted EPS calculation excludes any potential conversion of options and warrants that would increase earnings per share or decrease loss per share.

As at September 30, 2015 and 2014, potentially dilutive securities excluded from the calculation of EPS included all outstanding options and warrants as the conversion of these securities at September 30, 2015 and 2014 would not be dilutive to earnings.

(g) Financial instruments

All financial instruments are classified into one of the following five categories: fair value through profit or loss (“FVTPL”), held-to-maturity investments, loans and receivables, available-for-sale financial assets or other financial liabilities. FVTPL financial instruments are measured at fair value and all changes in those fair values recognized in net loss. Available-for-sale financial instruments are measured at fair value, with changes in those fair values recognized in Other Comprehensive Income (“OCI”). Loans and receivables, investments held-to-maturity and other financial liabilities are measured at amortized cost using the effective interest method.

The Company has made the following classifications:

Cash	Loans and receivables
Amounts receivable	Loans and receivables
Accounts payable and accrued liabilities	Other financial liabilities
Convertible debentures	Other financial liabilities
Secured loan	Other financial liabilities

Transaction costs are expensed as incurred for financial instruments classified as FVTPL. For other financial instruments, transaction costs are netted against the carrying value and are then recognized over the expected life using the effective interest method.

The Company has determined that it does not have derivatives or embedded derivatives.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at each financial position reporting date. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial asset have been impacted.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

3. Significant Accounting Policies (Continued)

For financial assets objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organization.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of estimated, discounted future cash flows. The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of amounts receivable, where the carrying amount is reduced through the use of an allowance account. When an amount receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account and changes in the carrying amount of the allowance account are recognized in the consolidated statement of operations.

(h) Stock-based compensation

Stock-based awards and payments

The Company grants stock options to directors, officers and employees. Each tranche in an award is considered a separate award with its own vesting period and grant date fair value. Fair value of each tranche is measured at the date of grant using the Black-Scholes option pricing model. The grant date fair value of options is recognized as share-based payment expense, with a corresponding increase in equity, over the period that the individual becomes unconditionally entitled to the options. The amount recognized as an expense is adjusted to reflect the number of share options for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of share options that do meet the related service and non-market performance conditions at the vesting date. Charges for options that are forfeited before vesting are reversed from share-based payment reserve. Upon the expiry of unexercised options or warrants, the amount expensed to the expiry date is transferred to retained earnings (deficit).

(i) Revenue recognition policy

Revenue is recognized when it is earned, specifically, when products are shipped to customers, there is clear evidence that an arrangement exists, amounts to be received are fixed or determinable and the ability to collect is reasonably assured. At these points, the risks and rewards of ownership have transferred to the buyer, revenue can be reliably measured and it is probable that the economic benefits will flow to the Company. Sales returns and allowances are treated as reductions to revenue and are provided for based on historical experience and current estimates.

License fees are earned based on the terms of the contract defined there and the non-refundable nature of payments made.

(Expressed in Canadian dollars, unless otherwise stated)

4. Changes in Accounting Policies and Recent Accounting Pronouncements

Changes in Accounting Policies

The Company has adopted the following new standards, along with any consequential amendments, effective October 1, 2014. These changes were made in accordance with the applicable transitional provisions. The adoption of these standards did not result in any changes in the Company's consolidated financial statements.

IFRS 8 - Operating Segments ("IFRS 8") was amended to require an entity to disclose the judgments made by management in aggregating segments. IFRS 8 was also amended to clarify that an entity needs to present a reconciliation between the total reporting segment's assets to the entities' total assets if this information is usually provided to the chief operating decision maker.

IFRS 13 – Fair Value Measurement ("IFRS 13") was amended to clarify that the exception which allows fair value measurements of a group of financial assets and liabilities on a net basis applies to all contracts within the scope of IAS 39 or IFRS 9, regardless of whether they meet the definitions of financial assets or liabilities as defined in IAS 32.

IAS 24 – Related Party Disclosures ("IAS 24") was amended to clarify that an entity providing key management services to the reporting entity or the parent of the reporting entity is a related party of the reporting entity. The amendments also require an entity to disclose amounts incurred for key management personnel services provided by a separate management entity.

IAS 32 – Financial Instruments: Presentation ("IAS 32") was amended by the IASB in December 2011 to clarify certain aspects of the requirements on offsetting. The amendments focus on the criterion that an entity currently has a legally enforceable right to set off the recognized amounts and the criterion that an entity intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

IAS 36 – Impairments of Assets ("IAS 36") was amended by the IASB in May 2013 to clarify the requirements to disclose the recoverable amounts of impaired assets and require additional disclosures about the measurement of impaired assets when the recoverable amount is based on fair value less costs of disposal, including the discount rate when a present value technique is used to measure the recoverable amount.

IAS 39 – Financial Instruments: Recognition and Measurement ("IAS 39") was amended by the IASB in June 2013 to clarify that novation of a hedging derivative to a clearing counterparty as a consequence of laws or regulations or the introduction of laws or regulations does not terminate hedge accounting.

Recent Accounting Pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods on or after October 1, 2015 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

IFRS 7 – Financial Instruments: Disclosures ("IFRS 7") was amended in September 2014 to clarify whether a servicing contract is continuing involvement in a transferred asset for purposes of determining the disclosures required. IFRS 7 was also amended to clarify that the additional disclosures relating to offsetting are not

Biosenta Inc.

4. Changes in Accounting Policies and Recent Accounting Pronouncements (Continued)

specifically required for interim periods unless required by IAS 34. The amendments are effective for annual periods beginning on or after January 1, 2016.

IFRS 9 – Financial Instruments (“IFRS 9”) was issued by the IASB in November 2009 with additions in October 2010 and May 2013 and will replace IAS 39 Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9, except that an entity choosing to measure a financial liability at fair value will present the portion of any change in its fair value due to changes in the entity’s own credit risk in other comprehensive income, rather than within profit or loss. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted.

IFRS 10 – Consolidated Financial Statements (“IFRS 10”) and IAS 28 – Investments in Associates and Joint Ventures (“IAS 28”) were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to be determined, however early adoption is permitted.

IFRS 11 - Joint Arrangements (“IFRS 11”) was amended in May 2014 to require business combination accounting to be applied to acquisitions of interests in a joint operation that constitute a business. The amendments are effective for annual periods beginning on or after January 1, 2016. Earlier adoption permitted.

IAS 38 – Intangible Assets and IAS 16, Property, Plant and Equipment were amended in May 2014 to introduce a rebuttable presumption that the use of revenue-based amortization methods for intangible assets is inappropriate. The amendment is effective for annual periods beginning on or after January 1, 2016. Earlier adoption permitted.

IFRS 15 – Revenue from Contracts with Customers (“IFRS 15”) was issued by the IASB on May 28, 2014. The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract based, five-step analysis of transactions to determine whether, how much, and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. The new standard is effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted.

IFRS 16 – Leases (“IFRS 16”) was issued in January 2016 and replaces IAS 17 – Leases as well as some lease related interpretations. With certain exceptions for leases under twelve months in length or for assets of low value, IFRS 16 states that upon lease commencement a lessee recognises a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the liability plus any initial direct costs. After lease commencement, the lessee shall measure the right-of-use asset at cost less accumulated depreciation and accumulated impairment. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognise the cumulative effect of initially applying IFRS

Biosenta Inc.

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars, unless otherwise stated)

4. Changes in Accounting Policies and Recent Accounting Pronouncements (Continued)

16 as an adjustment to opening equity at the date of initial application. IFRS 16 requires that lessors classify each lease as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise it is an operating lease. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. Earlier adoption is permitted if IFRS 15 has also been applied.

IAS 1 – Presentation of Financial Statements (“IAS 1”) was amended in December 2014 in order to clarify, among other things, that information should not be obscured by aggregating or by providing immaterial information, that materiality consideration apply to all parts of the financial statements and that even when a standard requires a specific disclosure, materiality considerations do apply. The amendments are effective for annual periods beginning on or after January 1, 2016.

IAS 12 – Income Taxes (“IAS 12”) was amended in January 2016 to clarify that, among other things, unrealized losses on debt instruments measured at fair value and measured at cost for tax purposes give rise to a deductible temporary difference regardless of whether the debt instrument’s holder expects to recover the carrying amount of the debt instrument by sale or by use; the carrying amount of an asset does not limit the estimation of probable future taxable profits; and estimates for future taxable profits exclude tax deduction resulting from the reversal of deductible temporary differences. The amendments are effective for annual periods beginning on or after January 1, 2017. Earlier adoption is permitted.

IAS 38 - Intangible Assets (“IAS 38”) and IAS 16 – Property, Plant and Equipment (“IAS 16”), were amended in May 2014 to introduce a rebuttable presumption that the use of revenue-based amortization methods is inappropriate. The amendments are effective for annual periods beginning on or after January 1, 2016.

5. Amounts receivable

	As at September 30 2015 \$	As at September 30 2014 \$
Accounts receivable	102	339
Loan receivable from related party (<i>note 10(v)</i>)	-	170,000
Sales tax receivable	8,262	-
	8,364	170,339

As at September 30, 2014, there was an amount owing from an officer and director of the Company totaling \$170,000. This receivable was unsecured, non-interest bearing and due on demand. This amount has now been written down to nil as the director is no longer with the Company and collection of the receivable is unlikely. The bad debt of \$180,322 includes the write off of \$170,000 as well as other miscellaneous amounts that were receivable from the officer and director that is no longer with the Company.

Biosenta Inc.

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars, unless otherwise stated)

6. Inventory

	As at September 30 2015 \$	As at September 30 2014 \$
Finished goods	2,816	3,765
Raw materials	52,385	55,202
	55,201	58,967

The inventory shown above is net of a provision for obsolescence of \$ nil (2014 - \$14,100). The amount of inventories expensed during the year was \$87,988 (2014 - \$97,400). As at September 30, 2015 and 2014, all inventories are recorded at cost.

7. Intangible assets

The intangible assets are comprised as follows:

	Total
Balance, September 30, 2013	\$3,060,000
Impairment of interim license	(1,453,500)
Balance, September 30, 2014 and 2015	\$1,606,500

On June 7, 2011, the Company entered into an exclusive world-wide interim license agreement with Marcus Martin, a Director of the Company, with respect to certain intellectual property rights held by Mr. Martin relating to a process for the manufacture of anti-microbial filler product (the "MM License Agreement"). Effective October 3, 2011, the License Agreement was amended and restated to add Edward Pardiak, a former Director of the Company as a co-licensor and was again amended and restated on April 10, 2012 to add 2320696 Ontario Inc. and 2262554 Ontario Inc., as a co-licensor. Marcus Martin and Edward Pardiak, control 2320696 Ontario Inc. and 2262554 Ontario Inc. through holding companies controlled by them. The consideration payable for the acquisition of the MM License Agreement was \$150,000 payable in installments of \$50,000 (\$50,000 paid). The consideration payable was superseded by the Amended and Restated License Agreement dated May 1, 2012 to an aggregate payment of \$300,000, \$50,000 having been paid in 2011, \$100,000 payable on or before the date that is 30 days after the Company receives payment for its first shipment having an aggregate purchase price in excess of \$200,000, with the balance of \$150,000 payable on the date that is 90 days after the Company receives payment for such first shipment. The Company accrued the full amount as of September 30, 2013 and paid the full amount outstanding during the year ended September 30, 2014 by the issuance of units (See note 12(i)).

The Company exercised its right to convert the interim license granted on June 7, 2011, as amended and restated, into an assignable, transferable, perpetual, world-wide exclusive license (the "License"). In connection with the exercise of the right to acquire the License, and in accordance with the terms of the MM License Agreement, the Company issued 20,000,000 fully paid and non-assessable Class A shares of the Company to the Licensors valued at \$3,060,000 based on the value of the most recently completed private placement share price of \$0.153. The effective date for the issuance of the Class A shares and the acquisition of the License was April 10, 2012. The License was subject to royalties payable equal to 7% to 25% of the amount the gross margin actually received by the Company on the sale of the licensed products based on gross margin as a percentage.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

7. Intangible assets (Continued)

As a result of the exercise of the License, the interim license was deemed impaired as it was replaced by the License and therefore, the Company charged the balance of \$150,000 to the statement of operations during the year ended September 30, 2013.

On June 23, 2014, the License was amended to effectively reduce the number of shares issued to acquire the License from 20,000,000 to 10,500,000 to be held in escrow. The escrowed shares were released in fiscal 2015 according to the conditions of the escrow agreement. Under the terms of the agreement, all patents, know-how and patent applications were assigned to the Company. All provisions of the License to which the Company is obligated to make payments to any of the licensors, including royalty payments are void and the parties acknowledge that no further payments will be made in respect of the License. A final termination payment of \$50,000 was paid to Edward Pardiak and charged to the consolidated statement of operations and comprehensive loss during the year ended September 30, 2014. If the Company had failed to obtain adequate funding to build the Parry Sound production facility by December 31, 2015, the patents could revert to the licensors, however as at September 30, 2015, management believes this requirement has been met. The plant was finished such that material was produced from the plant for testing by prospective customers.

In January 2013, the Company announced that it had entered into a non-binding contract with New South Biolabs ("Biolabs") pursuant to which Biolabs would become the Company's strategic logistics management partner responsible for enterprise resource planning, production and customer relationship management as pertaining to all "Zeromold" products destined for the southern United States, Mexico, South America and the Caribbean. Biolabs will also purchase Biosenta's first scale unit ringed product system and allocate resources to establish a facility for the Company's patented ringed product in the United States. Completion of the transaction is subject to a number of conditions, including completion of satisfactory due diligence reviews by both parties, negotiation and entering into definitive documents respecting the transactions acceptable to all parties, and obtaining all required approvals upon execution of definitive document respecting the transaction. Biolabs will pay Biosenta royalties on all products sold and a \$600,000 non-refundable fee, of which \$350,000 has been received to date. Of this amount, \$300,000 was reflected as revenue during the year ended September 30, 2013 and the remaining \$50,000 is an advance of the remaining fee which will be earned upon obtaining approval to sell the product in the United States.

8. Equipment

Equipment consists of the following:

Cost	Furniture & Equipment	Leasehold Improvements	Computer Equipment	Total
Balance September 30, 2013	\$356,411	\$259,476	\$8,978	\$624,865
Additions	52,034	-	761	52,795
Balance, September 30, 2014	\$408,445	\$259,476	\$9,739	\$677,660
Additions	97,859	-	-	97,859
Balance, September 30, 2015	\$506,304	\$259,476	\$9,739	\$775,519

Biosenta Inc.

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars, unless otherwise stated)

8. Equipment (Continued)

Accumulated Amortization	Furniture & Equipment	Leasehold Improvements	Computer Equipment	Total
Balance September 30, 2013	\$3,817	-	\$6,079	\$9,896
Additions	1,105	-	1,305	2,410
Balance, September 30, 2014	\$4,922	-	\$7,384	\$12,306
Additions	884	-	1,060	1,944
Balance, September 30, 2015	\$5,806	-	\$8,444	\$14,250
Net book value at September 30, 2014	\$ 403,523	\$ 259,476	\$2,355	\$ 665,354
Net book value at September 30, 2015	\$ 500,498	\$ 259,476	\$1,295	\$ 761,269

9. Accounts Payable and Accrued Liabilities

Accounts payable and accruals consist of the following:

	As at September 30 2015	As at September 30 2014
Trade payables	\$859,398	\$510,871
Director loans	56,000	-
Payroll Taxes payable	65,042	-
Sales tax payable	-	25,648
Payable to MVB	160,000	-
Accrued liabilities and other	845,648	152,031
Total	\$1,986,088	\$688,550

The Company is party to various claims and proceedings arising in the normal course of business. During fiscal 2015, the Company obtained a preliminary settlement regarding a consulting arrangement signed in 2011 with MVB Asset Management Inc. ("MVB"), The settlement includes an amount of \$160,000 to be paid over a period of three years. As a result, a liability has been set up to recognize the commitment to pay this settlement amount.

Loans to the Company from related parties (director loans) are unsecured, non-interest bearing with no fixed terms of repayment.

10. Related Party Transactions

In fiscal 2012, the Company announced that it exercised its right to convert the interim license granted under an intellectual property license agreement as amended and restated, into an assignable, transferable, perpetual, world-wide exclusive license (the "License") see Note 7. In connection with the exercise of the right to acquire the License and in accordance with the terms of the license agreement, the Company issued 20,000,000 fully paid and non-assessable Class A shares of the Company to the Licensors. The Company and the Licensors entered into an escrow agreement in respect of the 20,000,000 Class A shares issued in

Biosenta Inc.

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars, unless otherwise stated)

10. Related Party Transactions (Continued)

consideration of the License as well as a securities pledge agreement in respect of the Licensors' obligations under the MM License Agreement. Two of the licensors were also directors of the Company. The remaining obligation of \$250,000 for the interim license fee was accrued as of September 30, 2013 and subsequently settled by the issuance of units during the year ended September 30, 2014. Each unit consisting of one Class A share and one half of a Class A share purchase warrant. On June 23, 2014, the License was amended to effectively reduce the number of shares issued to acquire the License from 20,000,000 to 10,500,000. Consequently, 9,500,000 shares at a value of \$1,453,500 held by directors of the Company were cancelled.

- (i) Included in accounts payable and accrued liabilities as at September 30, 2015 is \$523,741 (2014 - \$6,780) owing to directors and companies controlled by directors of the Company. These amounts are unsecured, non-interest bearing with no fixed terms of repayment. Also, included in accrued liabilities as at September 30, 2014 was \$75,000 for severance payments owing to management that left the Company during 2014. This amount was payable in equal, bi-weekly payments commencing October 1, 2014 and ending March 31, 2015.
- (ii) Compensation of key management personnel of the Company

The remuneration of directors and other key management personnel for the years ended:

	September 30 2015	September 30 2014
Short-term compensation (i)	\$743,463	\$638,249
Share based payments (ii)	-	57,013
Severance payments	-	125,000
Total	\$743,463	\$820,262

(i) Short-term compensation includes salaries, bonuses and allowances, employment benefits and directors' fees.

(ii) Stock-based compensation represents the amount expensed by the Company for options issued.

- (iii) Compensation for closing convertible debenture financing

For the year ended September 30, 2014, Directors and companies controlled by directors were paid \$162,650 for their efforts in closing the convertible debenture financing.

- (iv) Shares and units issued

During 2014, directors and companies controlled by directors were issued 15,300,000 shares at a value of \$778,000 as compensation and 1,000,000 shares at a value of \$140,000 to settle outstanding debt. As at September 30, 2015 and 2014, 4,800,000 shares issued are in escrow pending the outcome of a dispute between the Company and a company controlled by a director (see Note 15).

As part of the private placements that closed during 2014, directors and companies controlled by directors were issued 8,993,766 units at a value of \$1,349,065 and 666,667 shares at a value of \$100,000. Each unit is comprised of one Class A common share and one half Class A common share purchase warrant.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

10. Related Party Transactions (Transactions)

(v) Loan Receivable

As at September 30, 2015 and 2014, there was an amount owing from an officer and director of the Company totaling \$170,000. This receivable is unsecured, non-interest bearing and due on demand. This amount has now been written down to nil as the officer and director is no longer with the Company and collection of the receivable is unlikely.

(vi) Convertible Debentures and Loan payable to Director

As at September 30, 2015, there was an amount loaned from a director of the Company totaling \$56,000. This payable is unsecured, non-interest bearing and due on demand. In addition, certain directors of the Company participated in the convertible debenture financing (Note 11) under the same terms as other debenture holders in the amount of \$28,000.

11. Convertible Debentures

During the year ended September 30, 2015, the Company closed additional tranches of the Convertible Debentures ("Debentures") for gross proceeds totaling \$863,000 (for the year ended September 30, 2014 - \$2,120,000). Total gross proceeds from the Debenture financing as of September 30, 2015 is \$2,983,000. Debentures have terms of 2 or 3 years and bears interest at a fixed rate of 6% per year, payable quarterly. Under the terms of the Debentures, the Company has the option to automatically convert the Debentures into common shares under two scenarios. For the majority of the Debentures they have an automatic conversion at a price of \$0.40, upon which the Company's common shares have traded at \$0.50 for a period of thirty or more consecutive trading days. Some Debentures have an automatic conversion at a price of \$0.15 upon which the Company's common shares have traded at \$0.20 for a period of thirty or more consecutive trading days. Upon conversion, for each share issued, a full warrant exercisable for one common share at a price of \$1 per common shares with a term of two years from the date of conversion will be issued.

During the year ended September 30, 2015, the Company used the residual value method to allocate the proceeds between the liability and equity components. Under this method, the fair value of the liability component (the "Debenture Liability") of \$603,256 was computed as the present value of future principal and interest payments discounted at a rate of 25% per annum. The residual value \$259,744 was attributed to the equity component. The resulting fair value of the liability component of the debentures is accreted to their face value through the recording of accretion expense until maturity using the effective interest rate of 23%.

During the year ended September 30, 2014, the Company used the residual value method to allocate the proceeds between the liability and equity components. Under this method, the fair value of the liability component (the "Debenture Liability") of \$1,346,937 was computed as the present value of future principal and interest payments discounted at a rate of 25% per annum. The residual value of \$639,119 was attributed to the equity component. The transaction costs totaling \$333,050, comprised of a cash commission and Class A shares issued as compensation were also allocated to the Debenture Liability and Equity Component of Convertible Debt. The resulting fair value of the liability component of the debentures is accreted to their face value through the recording of accretion expense until maturity using the effective interest rate of 33%.

Directors and companies controlled by directors were paid for their efforts in closing the convertible debenture financing during. Refer to note 10 for additional information.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

11. Convertible Debentures (Continued)

	As at September 30, 2015 \$	As at September 30, 2014 \$
Face value of debentures	2,983,000	2,120,000
Equity component of debentures	(898,863)	(639,119)
Transactions costs allocated to debentures	(333,050)	(333,050)
Accumulated accretion	1,231,913	199,106
Balance	2,983,000	1,346,937

As at September 30, 2015, the convertible debentures are in default as per the terms of the Debentures as the required quarterly interest payments are in arrears and the Company has initiated the Restructuring Proposal . Therefore the debentures are due upon demand and shown as current liabilities on the consolidated statement of financial position.

12. Share Capital

Authorized:

The Company can issue an unlimited number of:

Class A shares, voting and participating.

Class B shares, voting, redeemable at any time at the option of the corporation for an amount equal to the fair value of the consideration received at issuance.

Class C preferred shares issuable in series with the following to be fixed with each series: number of shares, designation, rights, privileges, restrictions and conditions including dividend rate and calculation method and payment dates, the redemption, purchase and/or conversion prices, terms of redemption, purchase and/or conversion, any sinking fund or other provisions, may be convertible into Class A shares and voting unless otherwise determined.

Issued and outstanding: Class A Shares

	Number of shares	Amount
Balance, September 30, 2014	83,767,821	\$ 8,415,699
Balance, September 30, 2015	83,167,821	\$ 8,331,699

- (i) On October 10, 2013, the Company issued 6,522,892 units at \$0.15 per unit for aggregate consideration of \$978,434 with \$734,185 of the total consideration used to offset existing debt. Each unit consisted of one Class A share and one half of one Class A share purchase warrant. Each whole warrant entitles the holder to purchase one additional Class A share at an exercise price of \$0.20 per warrant to the extent such warrant is exercised on or before the date that is 18 months from the closing of the Offering.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

12. Share Capital (Continued)

A fair value of \$156,040 was estimated and assigned to the warrants. In connection with the issue and sale of certain Units in the Offering, the Company paid a finder's fee consisting of 248,334 Units valued at \$37,256.

- (ii) On January 28, 2014, the Company issued 6,294,870 units at \$0.15 per unit for aggregate consideration of \$944,230 with \$626,231 of the total consideration used to offset existing debt. Each unit consisted of one Class A share and one half of one Class A share purchase warrant. Each whole warrant entitles the holder to purchase one additional Class A share at an exercise price of \$0.20 per warrant to the extent such warrant is exercised on or before the date that is 18 months from the closing of the Offering.

A fair value of \$212,564 was estimated and assigned to the warrants.

- (iii) On May 24, 2014, the Company issued 2,499,999 Class A shares at \$0.07 per share for aggregate consideration of \$175,000.

The Company also issued 666,667 Class A shares valued at \$100,000 to the Chairman of the Company as compensation for 12 months of service and 157,733 Class A shares to settle existing debt of \$23,660. In addition, the Company issued 1,749,999 units at \$0.15 per unit for aggregate consideration of \$262,500, each unit consisting of one Class A share and one half of a Class A share purchase warrant. Each whole warrant entitles the holder to purchase one additional Class A share at an exercise price of \$0.20 per warrant to the extent such warrant is exercised on or before the date that is 18 months from the closing of the Offering.

A fair value of \$63,048 was estimated and assigned to the warrants. In connection with the issue and sale of certain Units in the Offering, the Company issued 100,000 Class A shares at a value of \$11,036 as compensation to finders and incurred cash share issue costs of \$12,900.

- (iv) On March 26, 2014, the Company issued 8,000,000 Class A shares to Bassett Financial Corp. at the market price of \$0.05 per share for a total value of \$400,000. The shares were issued as part of the fee for providing various financial and consulting services including completing three stages of funding. The shares were placed in escrow and released upon certain conditions being met. Upon the funding of a bridge loan in May 2014, 3,200,000 shares were released from escrow. The remaining shares were to be released upon completion of future financing. In October 2014, the agreement with Bassett Financial was cancelled. The remaining shares held in escrow have been classified as treasury shares as the second and third financing arrangements per the agreement were not completed. Refer to note 15 for additional information.
- (v) On March 31, 2014, the Company issued 3,600,000 shares to the Chairman of the Company at the market price of \$0.05 per share for a total value of \$180,000 as compensation for financial and consulting services. The value was charged to the consolidated statement of operations as salaries, management and consulting fees during the year ended September 30, 2014.
- (vi) During the year ended September 30, 2014, 300,000 stock options were exercised for gross proceeds of \$60,000. The value of the options exercised was \$46,043 and was reallocated to share capital.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

12. Share Capital (Continued)

- (vii) On June 23, 2014 the Company amended its intangible asset License which included the cancellation of 9,500,000 Class A shares that were issued at \$0.153. Refer to note 7 for additional information.
- (viii) On June 26, 2014, the Company issued 3,700,000 Class A shares at a value of \$518,000, based on the current market value, to management and directors of the Company for providing various financial and consulting services and 1,000,000 Class A shares at a value of \$140,000, based on the current market value, to directors and officers of the Company in settlement of debt of \$575,548. The Company realized a gain on settlement of debt of \$435,548 during the year ended September 30, 2014.
- (ix) During the year ended September 30, 2015, two directors returned their Class A shares for cancellation totaling 600,000 shares from the 3,700,000 Class A share issue described in note 12(viii) at the request of the Company.

13. Warrant Reserve

The movements in the number and estimated fair value of outstanding broker warrants and share purchase warrants are as follows:

	September 30, 2015		September 30, 2014	
	Number Outstanding	Weighted Average Exercise Price	Number Outstanding	Weighted Average Exercise Price
Balance, beginning of the year	6,658,049	\$0.20	17,136,671	\$0.29
Issued	-	-	7,408,049	0.20
Expired/Cancelled	(5,783,048)	\$0.20	(17,886,671)	0.29
Balance, end of year	875,001	\$0.20	6,658,049	\$0.20

The exercise price, expiry date, and the outstanding warrants issued and outstanding as at September 30, 2015 are as follows:

Expiry Date	Weighted Average Exercise Price \$	Grant Date Fair Value \$	Warrants Outstanding	Contractual Life (years)
November 30, 2015*	0.20	63,048	875,001	0.17

* Subsequent to September 30, 2015, these warrants expired unexercised.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

13. Warrant Reserve (Continued)

The fair value of the warrants issued during the year ended September 30, 2014 was estimated using the Black-Scholes option pricing model with the following weighted average assumptions:

	2014
Risk free interest rate	1.04%
Expected dividend yield	Nil
Expected volatility	141%
Expected life	1.5 years

Option pricing models require the input of subjective assumptions regarding the expected volatility. Changes in assumptions can materially affect the estimate of fair value, and therefore, use of Black-Scholes option pricing model, may not provide a realistic measure of the fair value of the Company's warrants at the date of issue.

14. Equity Reserve and Stock-Based Compensation

The Company has a stock option plan (the "Plan"), under which the Company may grant options to directors, officers, employees, and third party service providers. Under the terms of the Plan that was approved by the shareholders on May 24, 2012, the Company is authorized to issue a maximum of 10% of the issued and outstanding shares.

The purpose of the Plan is to attract, retain and motivate directors, officers, and certain third party service providers by providing them with the opportunity to acquire a proprietary interest in the Company and benefit from its growth. The options granted under the Plan are non-assignable, have a term of 5 years and vest over periods of up to three years from the date of issue.

Share based payment activity for year ended September 30, 2015 and the year ended September 30, 2014 are summarized as follows:

	September 30, 2015		September 30, 2014	
	Number Outstanding	Weighted Average Exercise Price	Number Outstanding	Weighted Average Exercise Price
Balance, beginning of the year	4,400,000	\$0.21	4,930,000	\$0.21
Granted	-	-	450,000	0.20
Exercised	-	-	(300,000)	0.20
Expired	(3,250,000)	0.22	(680,000)	0.20
Balance, end of year	1,150,000	\$0.20	4,400,000	\$0.21

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

14. Equity Reserve and Stock-Based Compensation (Continued)

Options to purchase common shares outstanding at September 30, 2015 carry exercise prices and remaining terms to maturity as follows:

Expiry Date	Exercise Price \$	Options Outstanding	Options Exercisable	Grant Date Weighted Average Fair Value per option \$	Weighted Average Remaining Contractual Life (years)
November 8, 2016	0.20	100,000	100,000	0.110	1.11
August 8, 2017	0.20	700,000	700,000	0.150	1.86
January 29, 2019	0.20	350,000	233,334	0.05	3.33
	0.20	1,150,000	1,033,334	0.117	2.24

During the year ended September 30, 2015, the Company did not grant any new options (year ended 2014 – 450,000) with a weighted-average price of \$nil per share (2014 – \$0.20). The fair value of the options issued during the year ended September 30, 2014 was estimated using the Black-Scholes option pricing model with the following assumptions:

	2014
Risk free interest rate	1.57%
Expected dividend yield	Nil
Expected volatility	141%
Expected life	5 years

Option pricing models require the input of subjective assumptions regarding the expected volatility. Changes in assumptions can materially affect the estimate of fair value, and therefore, use of Black-Scholes option pricing model, may not provide a realistic measure of the fair value of the Company's options at the date of issue.

15. Commitments and Contingencies

Operating Lease Commitments

Minimum payments due under operating leases in respect of office space, plant space and office equipment are set out below.

2016	\$	92,287
2017		36,557
	\$	128,844

Amounts recognized as expense were as follows:
For the year ended September 30, 2015: \$138,672
For the year ended September 30, 2014: \$90,417

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

15. Commitments and Contingencies (Continued)

Employment Agreements

The Company currently has an employment agreement with the provision of termination and change of control benefits with an officer of the Company. The agreement for the officer provides that in the event that their employment is terminated by the Company other than for cause then the officer shall be entitled to a lump sum payment amount equal to the annual base salary and an additional one month's salary and bonus for each additional full year of employment after the second year plus \$24,000 compensation for loss of benefits. The change of control provision entitles the officer to 24 months salary plus two additional months of salary for each full year of employment after three years plus \$48,000 and \$2,000 for each year of employment after three years as compensation for loss of benefits and a lump sum of two times the greater of 1) average payments made under the bonus plan in each of the two preceding years and 2) target bonus under the bonus plan for the fiscal year terminated. The additional commitments total approximately \$1,322,000. As a triggering event has not taken place, the contingent payments have not been reflected in these consolidated financial statements.

The Company also has employment agreements with the provision of termination benefits with employees of the Company. The agreements provide that in the event that the employees' employment is terminated by the Company other than for cause then the employees shall be entitled to a lump sum payment. These commitments total approximately \$17,500. As a triggering event has not taken place, the contingent payments have not been reflected in these consolidated financial statements.

Other Contingencies

The Company is party to various claims and proceedings arising in the normal course of business.

The Company has uncovered evidence that possible improprieties and breaches of fiduciary duty may have been committed by former directors of the Company. It is not possible to determine if any amounts will become payable as a result of these matters and no provision has been made in these consolidated financial statements.

Currently, the Company is seeking to void an advisory agreement signed in 2014. Compensation shares totaling 4,800,000 to be issued in accordance with this agreement are held in escrow as at September 30, 2015, and will not be released until the dispute is resolved.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

16. Income Taxes

a) Provision for Income Taxes

Major items causing the Company's effective income tax rate to differ from the combined Canadian federal and provincial statutory rate of 26.5% (2014 - 26.5%) were as follows:

	2015	2014
Loss before recovery of income taxes	\$ (3,639,908)	\$ (4,799,429)
Expected income tax recovery based on statutory rate	\$ (965,000)	\$ (1,272,000)
Increase (decrease) in taxes resulting from:		
Non-deductible stock-based compensation	(5,900)	23,100
Deductible share issue costs	-	(147,900)
Tax on expired warrants	42,900	119,100
Expenses not deductible for tax purpose	594,400	104,800
Other items	7,448	(687)
Tax benefits not realized	437,900	1,523,700
Deferred income tax recovery	\$ 111,748	\$ 350,113

b) Deferred Income Taxes Assets

Deferred tax assets have not been recognized in respect of the following deductible temporary differences:

	2015	2014
Equipment	\$ 133,000	\$ 131,000
Non-capital losses	10,317,000	7,897,000
Share issue costs	355,000	513,000
Cumulative eligible capital	1,793,000	1,793,000
Convertible debt	-	773,000
Capital losses	7,000	7,000
Deductible temporary differences	\$ 12,605,000	\$ 11,114,000

Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company and its subsidiary will be able to utilize the benefits.

As at September 30, 2015, non-capital losses totalling \$10,317,000 (2014 - \$7,897,000) will expire at various dates through 2035.

All other temporary differences can be carried forward indefinitely.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

17. Financial Risk Factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

The Company's credit risk is primarily attributable to other receivables and receivable from the refund of sales taxes. The Company has no significant concentration of credit risk arising from operations. Management believes that the credit risk concentration with respect to financial instruments included in other is remote.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet current liabilities when due. As at September 30, 2015, the Company had a cash balance of \$16,700 (2014 - \$302,067) to settle current liabilities of \$4,987,088 (2014 - \$688,550). Notwithstanding the ending working capital deficit, the Company believes it will be able to settle its current obligations based on the Company's expectation that it will successfully complete the settlement of the Company's liabilities under the CBIA process commenced on November 19, 2015. Refer to Note 1. The Company does not have sufficient cash reserves to fund its product development programs, administrative costs and other obligations for the coming fiscal year. The Company's accounts payable and accrued liabilities generally have contractual maturities of less than 30 days and are subject to normal trade terms.

Market risk - Interest rate risk

The Company's current policy is to invest excess cash in investment-grade, short-term deposit certificates issued by its banking institutions. The convertible debentures bear fixed interest rates and therefore are not subject to interest rate risk. Currently, the Company does not hedge against interest rate risk.

18. Capital Management

Capital is defined as share capital, warrant reserve and equity reserve. The Company's objectives when managing capital are to maintain an appropriate balance between holding a sufficient amount of capital to support its operations as a going concern, and providing shareholders with a prudent amount of leverage, as and when required, to enhance returns. There have been no changes since the prior year.

The intellectual property in which the Company has acquired through a license agreement is currently in the development stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned development and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Funds are primarily secured through equity capital raised by way of private placements. There can be no assurances that the Company will be able to continue raising equity capital in this manner. The Company invests all capital that is surplus to its immediate operational needs in short-term, liquid and highly rated financial instruments, such as cash and other short-term guaranteed deposits, all held with major Canadian financial institutions.

The Company is not subject to any regulatory or contractual capital obligations of material consequence.

Biosenta Inc.

Notes to the Consolidated Financial Statements
For the years ended September 30, 2015 and 2014
(Expressed in Canadian dollars, unless otherwise stated)

19. Subsequent Events

Creditor Proposal

Proposal to Creditor

On November 19, 2015, the Company announced that it had filed a Restructuring Proposal to Creditors (“Restructuring Proposal”) under the Canadian Bankruptcy and Insolvency Act. The proposal has been approved by the Board of Directors of the Company, which has appointed a trustee.

Under the Restructuring Proposal, eligible creditors were given the choice of: (i) receiving up to 50 per cent of the eligible claim amount in cash (with 15 per cent up front, subject to proration if total payments thereunder would exceed \$215,000, and 35 per cent payable contingent on there being sufficient cash flow over time), or (ii) in common shares equal in number to 1/700 of the total (fully diluted) issued and outstanding common shares of the Corporation, following all issuances under this Proposal in settlement for each \$10,000 of a creditors’ claim. A meeting of eligible creditors was held on December 7, 2015 at the trustee's office where the Restructuring Proposal was accepted by the majority of creditors. A court date has been scheduled for February 2, 2016 to proceed with the next step of the proposal.

Financing for Company through Restructuring Proposal Process

To finance the Company through this Restructuring Proposal process, secured creditors have invested \$365,394 as of January 28, 2016 under the terms of a Grid Note. The Grid Note is on a secured basis and the Company has entered into a general security agreement, which include all assets of the Company as security.

The terms of the Grid Note include an interest rate of one per-cent (1%) per annum, calculated daily, paid semi-annually starting April 1, 2016. The loan is due on the earlier of October 28, 2017 or upon the Company declaring bankruptcy or proceeding with insolvency proceedings.

The Grid Note would be mandatorily converted into Class A shares of the Company, based on the same conversion ratio as applied to unsecured creditors, immediately following the Company giving full effect to the Proposal to Creditors with final court approval.

There can be no assurances that the various financing proposals being discussed will be competed on terms acceptable to the Company or at all.
