

PRESS RELEASE

“Biosenta Inc. announces the addition of new directors”

November 1, 2016 (Toronto) Biosenta Inc. (CSE; ZRO) is pleased to announce that Mr. Nicholas Iacono and Mr. Amarvir Gill have joined its board of Directors.

Mr. Iacono, of New Canaan, CT, is a chemical engineer and a senior executive with a record of growing revenue and profit for companies such as Rohm & Haas where he designed and built two plants producing 40M pound of urethane resin that generated \$50M in revenue.

He received his BS, Chemical Engineering from Drexel University in 1988, Certified as Professional Engineer, State of Pennsylvania in 1993 and MBA from Harvard University Graduate School of Business in 1996. He will assist the company expand its reach into the US markets.

Mr. Gill resides in Calgary, Alberta. He has eighteen years of experience in Money and Capital Markets with major banks and energy companies where he held roles as Treasurer and has been delegated signing officer for these companies.

His skills will be used to add innovation to growth strategies as the company expands its product lines with particular emphasis on forming a sales office in Western Canada.

About Biosenta Inc.

Biosenta Inc. develops and manufactures a range of chemical compounds for household and industrial applications using advanced encapsulated nanotechnology.

Other household disinfectants and cleaners possess similar levels of efficacy as traditional disinfectants. But Biosenta products contain significantly lower concentrations of active ingredients resulting in lower toxicity.

Biosenta disinfectants and cleaners will kill 99.9% of potentially deadly mold, fungi, bacteria and viruses on contact and prevent re-growth. Biosenta disinfectants are very safe due to the very low toxicity.

Biosenta industrial compounds are embedded to protect various materials, including drywall, plastic and resins, from microbe formation.

These compounds remain active for decades and protect the drywall of buildings, objects such as resin furniture, and carpet rubber backing and synthetic tufts which contain plastic or resin, as well as textiles and paper from mold, fungi, bacteria and viruses. Both the Biosenta household and industrial products are environmentally safe and biodegradable.
